## Didsbury Exhibition to have Good Program.

### BUSINESS MEN DISPLAY FINE SPIRIT OF HELPFULNESS.

Visitors to the fair and exhibition, to be held August 4 and 5, will find a good program of sports awaiting them if the ideas already formed are carried into effect. There was keen interest and genuine enthusiasm shown at the meeting held on Friday evening last, when about fifteen to twenty of the keenest sports in town attended a meeting in the C.P.R. waiting room. The matter of a program was thrown open for discussion by J. A. McGhee, president.

Messrs. McCoy and Revell, representing the Agricultural Society, briefly outlined the situation as viewed by their organization. The Society, they said, would co-operate with the sports committee as far as it was possible for it to do so.

During the discussion, it was stated that last year the sports were largely financed from money obtained through booth privileges, but it was found that the funds so obtained were not sufficient to enable them to offer prizes large enough, and it appeared to be the general consensus of opinion of those present that more substantial prizes this year should be offered.

In answer to a query, Mr. Miller, secretary, replied that the sum raised last year was \$150.

Eventually, it was decided to form a sports committee, and as the president declared other matters prevented his serving again this year, E. E. Reiber was elected president. Other appointments included Geo. Jullien as vice and W. Miller secretary.

Finance committee—C. Adshhead, Bert Cressman and E. Watt.

Horse races—W. Hardy, Dr. Malmas, D. Sinclair, E. Cressman. Athletics—Dr. Leisemer, J. Philipson, Dr. Evans.

Booth—A. W. Axtell, W. Leadbetter, C. Gibbs, F. Merton, and C. Kirby.

Advertising—Dr. Leisemer, A. Revell, W. P. Cotton.

In connection with the latter, proceeds from the advertising will be devoted entirely to sports, and so generously have the various business men come forward that a very substantial amount is assured. This means that the prizes offered this year will be worth striving for and no doubt a largely increased entry will result.

## Bergen News

Deciples of Foster beware: we could find enough water down here to drown him.

Mr. and Mrs. Ross Ellis and family arrived just ahead of the rain on a visit to Mrs. Ellis' parents. She says her desire is to live in the Highlands and not on the bald-headed prairie.

The Springlike weather lately prevailing, has lightly turned the thoughts of one of our prominent young bachelors, but when he talks of going to the States for her it is certainly no light matter.

"Here with a loaf of bread beneath the bough," seems to be getting quite a habit with Easterners on Sundays, the fish however, seem to be wise.

"Tell me where is fancy bred?" "At Sundre Stampede, Sir", she said. Be sure to bring him along girls.

Messrs. Hunn and O' Erickson have left us temporarily to visit the big timber in B. C.

The wet weather is unfortunate for the young gentlemen who have been fording the river so often lately on visits to his homestead.

## Mountain View.

Jutland W.C.T.U. held a very successful and pleasant meeting on June 4th, at the home of Mrs. George Burnes. There was a good attendance, about thirty-five present. Mrs. Eckel gave a very interesting paper, a duet by Mrs. McClain and Mrs. George Burns following. After the meeting was concluded a short social time was spent, a dainty lunch then being served by the hostess. The next meeting will be held at Mrs. Eckel's on June 7th.

An executive meeting was held planning a garden party at Mr. and Mrs. C. R. Leisemer's on July 15th. Admission, adults, 25c; children under 10 years, 10c. We hope for a large attendance. Everyone welcome.

There was a large and appreciative congregation at the Community Hall Sunday, May 31st, to hear Mr. Woods, of the Woods' Christian Home, at Olds.

This Community will celebrate their annual picnic July 1st, followed by a dance in the Hall.

The dance Friday night was a huge success.

Miss May Pearson spent the weekend visiting Mrs. Thurlow.

Atkinsons are the latest purchasers of a new car.

Born, to Mr. and Mrs. Geo. Nufell a son, Friday, June 5th.

Mr. Blain and family visited at Three Hills Sunday.

Mrs. Blain's brother, Floyd Blanchard, has returned to Iowa.

Last Tuesday, June 2, the regular meeting of the Twilight Club was postponed until the following Thursday on account of excess rain. That evening a large number turned out and a good time was reported by all.

On Tuesday, June 9, about fifteen good sports met at Mr. and Mrs. H. Dagford's home, where the evening was spent in playing games and a short reading was given entitled "Ten Years from the Present Time," which was enjoyed by all.

Next Tuesday baseball will be played at Allen Hamperger's.

Mr. and Mrs. W. Bruce and family arrived in Didsbury on Friday last from Elgin, Scotland, and will locate on the Stewart farm, on the Sunny-slope road, ten miles east of town. They left Scotland on May 28th and arrived in Canada June 8th, reporting a good passage. There are six children, ranging from the youngest two years in age to the eldest at sixteen years. Mr. Bruce is an experienced agriculturist having been engaged in farming all his life.

## CROP CONDITIONS ARE EXCELLENT.

Plenty of moisture and warm sunshine have had really a remarkable effect upon the crops during the past week. One of our farmers, an old-timer, avers he has only seen crop prospects as favorable but once before.

As an indication of the rapid growth now taking place, a ring was placed around a wheat stem the other day and in twenty-four hours inspection showed a growth of one and three-quarter inches.

## Didsbury Farmers Attend Pool Meeting.

As elsewhere, the farmers in the Didsbury district have evinced great interest in the dairy pool and the egg and poultry pool in Alberta, and a fairly large number attended the meeting at Calgary on Monday. Among those present were Messrs. A. McNaughton, N. S. Clark, D. Irwin, W. J. Scheidt, W. Hardy, J. Philipson, W. McCoy, and C. H. Adshhead.

## MASONIC CHURCH SERVICE.

In accordance with custom long established by brethren of the Masonic faith, the members of King Hiram Lodge, A.F. & A.M., will attend divine service at the Presbyterian church on Sunday next, June 21st, at three p.m. Lodge will open in the Masonic hall at two p.m.

Visiting brethren are cordially invited to participate in this service.

Mr. and Mrs. J. C. Stevens, with their son John, left the beginning of the week on an extended trip to the Coast.

### Canada's Tied-Up Resources

Parliament, the railways, the Canadian Manufacturers' Association, Labor Unions, and public bodies generally, are still struggling with the problems involved in finding a remedy for the lack of population, recurring periods of unemployment, and slowness of development and prosperity in Canada. That there is something wrong somewhere, all admit, but no two groups are agreed as to the nature of the remedy to be applied.

The railways urge the need of larger immigration in order to overcome the lack of population without which it is argued the natural resources of the Dominion cannot be developed. It is also urged that in the matter of railways, manufacturing industries, and national equipment of all kinds, Canada is over-equipped for its present population, and that, until there is a large consuming population, the railways cannot operate to full capacity, nor can factories be fully manned and operated the year round. Thus we have advocates of a wide open door policy in immigration.

Labor Unions combat this argument and declare that so long as men are out of employment many months in the year because they cannot get work, immigration should be further restricted rather than increased. They claim that instead of bringing more people into Canada, conditions should be so improved here as to provide adequate employment and thus stop the exodus of thousands of Canadians annually to the United States.

The manufacturers have their own pet solution, the sure cure for all Canada's economic ills, namely, higher tariff protection; in other words, the erection of a Customs wall sufficiently high to keep out the manufactured goods of the British Isles and the United States. They argue that if this was done, there would be employment for all Canadian artisans and workmen, but, they contend, they cannot compete with the United States and British manufacturers. Despite these statements and assurances, the fact remains that Canada's present population is too small to absorb the output of its industries, and our manufacturers are competing successfully with United States and British manufacturers in world markets.

There is, however, a basic reason for Canada's economic difficulties and lack of development commensurate with the wealth and variety of its natural resources, but, unfortunately, nobody has the courage to frankly state the difficulty on the floor of Parliament or in open convention of the organizations to which reference has been made.

On more than one occasion in the past the statement has been made in this column that the chief ground of complaint against the Canadian manufacturer on the score of the tariff has been the use made by him of the tariff protection he has enjoyed for the past forty or fifty years; that is, that he has used the tariff merely to add to the selling price of his goods in the Canadian home market instead of using it, as Germany, United States and Japan have used their protective tariffs, to develop their natural resources for use at home and abroad. Instead the Canadian manufacturer has followed the line of least resistance and has gone on, importing raw and semi-manufactured materials which by a little initiative and enterprise, and the investment of capital on the part of the Canadian manufacturer, could have been produced in Canada, thereby providing employment, keeping capital at home, reducing costs of manufacturer, and reducing the adverse balance of trade as between this country and the United States.

The reason Canada's present population is so small despite the great efforts put forth to attract immigrants; the reason why factories are not busily engaged and fully staffed all the year round; the reason there is an annual exodus of Canadians to the United States; the reason there is unemployment; the reason why our railways are not worked to capacity, is to be found in the fact that to a very large extent the natural resources of the Dominion are still lying dormant, undeveloped for use, and, most regrettable of all, are now to a great extent tied up so that their development in the near future is practically out of the question.

In the next article to appear in this column explanation will be made of this last statement and outlining what is considered to be the most serious situation confronting this Dominion and its future, and one which, unless our Federal Government and those of the Provinces which have control of their own resources lose neither time nor courage in dealing with, may result in ultimately breaking the Dominion.

#### Trade With North Country

Trading More With United Kingdom and Less With United States  
Canada is trading more with the United Kingdom and less with the United States, according to a bulletin issued by the bureau of statistics. Exports to the United Kingdom in the twelve months ending March were \$35,000,000 more than in the year previous. Exports to the United States on the other hand, were \$13,000,000 less. Imports from the United Kingdom were practically the same as the year before, the reduction being only two millions. Imports from the United States showed a drop of \$90,000,000.

#### Swollen Joints, Quickly Limbered Up

#### Rub On Nerviline

You would be surprised at the wonderful action of "Nerviline" in just such cases. Being thin and not an oil preparation, it is able to penetrate quickly, and down it slings into the tissues, carrying its healing, soothing action wherever it goes. For stopping muscular or nerve pain, for easing a stiff joint, Nerviline is a complete success. Pain, soreness, stiffness all vanish before the magic power of this wonderful liniment. Nearly fifty years of success proves the merit of Nerviline, which is sold everywhere in large 35 cent bottles.

#### Federal Government Votes Money For Fish Propagation

A vote of \$370,000 for fish culture was carried in the House of Commons. In addition to a number of other items, including \$30,000 for the building of fishways and clearing waters, \$95,000 to assist in the conservation and development of deep sea fisheries, \$2,000 for the maintenance of the fisheries intelligence bureau, and \$10,000 to provide for investigations into practical and economic problems connected with fisheries.

#### HELP FOR TIRED NERVOUS PEOPLE

#### Found in the Use of Dr. Williams' Pink Pills

Are you pale and weak, tired most of the time, out of breath on slight exertion? Are you nervous, is your sleep disturbed so that rest does not refresh you?

Is your appetite poor, your digestion weak and do you have pains after eating?

If you have any of these symptoms you need the help of such a reliable tonic as Dr. Williams' Pink Pills. Read what Mr. W. W. Francis, of Calgary, Alta., says of this tonic. "After returning from overseas," writes Mr. Francis, "my whole system was in a badly run down condition. I became nervous, irritable, pale and lost weight. Of course I was given treatment and recommended many tonics, some of which I took, but with no apparent result. At last I could not even sleep. My sister, who is in England, wrote and urged me to give Dr. Williams' Pink Pills a trial, and I can scarcely say how glad I am that I took her advice. My friends were surprised at my complete recovery, but I assured them it was due entirely to Dr. Williams' Pink Pills and I now always keep a box on hand in case of emergency."

If you are ailing give these pills a fair trial and they will not disappoint you. Sold by all dealers in medicine or sent by mail at 50 cents a box by writing The Dr. Williams' Medicine Co., Brockville, Ont.

#### Crop Registration

#### Nearly Two Thousand Fields Were Registered in 1924

Crop registration service of the Canadian Seed Growers' Association increased by almost one hundred per cent. during 1924. In 1923 about one thousand fields were registered and in 1924 nearly two thousand. Averages of seed crops registered last year were roughly: wheat, 17,500 acres, 355,000 bushels; oats, 11,000 acres, 482,000 bushels; barley, 500 acres, 15,000 bushels; flax, 950 acres, 9,200 bushels; alfalfa, 4,000 acres, 480,000 pounds.

#### To Locate At Winnipeg

#### Residence of Board of Grain Commissioners To Be Changed

The residence of the board of grain commissioners was changed from the head of the lakes to Winnipeg when the agriculture committee of the House of Commons amended the residence clause in the Canada Grain Act. There was considerable discussion and a majority of the committee favored the change.

Hon. Dr. R. J. Manion, Conservative, Fort William, protested strongly against the recommendation to move the board of grain commissioners from the head of the lakes to Winnipeg, pointing out that Winnipeg was only an exchange and that grain was only inspected there. At the head of the lakes, however, stated Dr. Manion, grain is weighed, stored, hospitalized, trans-shipped and finally inspected into boats.

Hon. W. R. Motherwell, minister of agriculture, disagreed with Dr. Manion. The proper place, he contended, for the location of the board of grain commissioners was at Winnipeg. Mr. Motherwell declared that ninety per cent. of the disputes occurred in Winnipeg and the vicinity.

Hon. T. A. Cramer also took issue with Dr. Manion. The only sensible place, he contended, for the board to be stationed was at Winnipeg.

**No Rest With Asthma.** Asthma usually attacks at night, the one time when rest is needed most. Hence the loss of strength, the nervous debility, the loss of flesh and other evils which must be expected unless relief is secured. Fortunately relief is possible. Dr. J. D. #### Donates Trophy For Competition

#### Prince Sends Silver Cup to Banff Golf Club

On more than one occasion the Prince of Wales, during informal visits to his ranch in Alberta, has visited Banff, Alta., and played golf on the "Roof of the World." Last year, during his flying visit to Canada, he again had a round of the links—possibly the most picturesque on the continent. And now, this season, the members of the Banff Golf Club will have the rare pleasure of playing for a trophy from His Royal Highness, a beautiful silver cup with the graceful Prince of Wales' feathers inscribed thereon, which was recently received from London. Needless to say, perhaps, how the golfers of Banff appreciate this unique compliment and how zealously the trophy will be prized and keenly competed for.

#### Dairying In Manitoba

#### Industry Has More Than Doubled During Past Year

Dairying and livestock raising is on the increase in Western Canada and in the districts of Manitoba where mixed farming is practiced the dairy business has been more than doubled over that of a year ago. While some few points report fewer livestock being handled, the majority of districts tell of increases both in winter feeding and in dairying.

## DISCUSS QUESTION OF THE DISPOSAL OF SCREENINGS

Ottawa.—Disposition of screenings was considered by the agricultural committee of the House of Commons. A clause in the new Canada Grain Act provides that the board may take over screenings, make allowances for dockage removed from grain cleaned in public terminal elevators, and allow compensation as it seems proper for all screenings removed.

The clause was stood over by the committee.

Under the present system no charge is made for cleaning if the amount of small seeds is less than three per cent. by weight. Beyond that a charge is made in proportion to the amount of dockage, the screenings going back to the shipper for his disposal. Where dockage is less than three per cent. the screenings remain with the board of grain commissioners to cover the cost of cleaning.

Seed Commissioner Clark thought the elevator companies had been, in connection with the screenings, under more odium than they deserved and he thought the companies would be glad if this clause was adopted and themselves relieved of ownership of the screenings. Screenings were in good demand as feed, but distributed over the country without removal of the noxious weeds, were a menace to agriculture. Mr. Clark thought screenings were the best balanced feed obtainable if properly ground. The object of the board in putting this clause into the act was to remove the weed menace by exercising proper control of cleaning and grinding. The small seeds in refuse screenings had a full value equal to lignite coal, because they were rich in oil. They could, however, only be used in central heating plants.

## Oppose Adjustment Bureau In Ottawa

Veterans Protest Against Using Canteen Funds For This Purpose

Ottawa.—Opposition to the allotment of the sum of \$100,000 out of the canteen funds, for the maintenance as assistance of an adjustment service bureau at Ottawa, was voiced by Capt. Harry Colbourne, of the Army and Navy Veterans, before a special committee of the senate, conducting an inquiry respecting an accounting of monies received by the Great War Veterans' Association from the disablement and canteen funds and proceeds from the sale of poppies. Consideration of the canteen fund and pensions bills also has been referred to this committee.

### More Unemployment In Britain

London.—General anxiety and disappointment was expressed over an official announcement that the number of unemployed in Great Britain increased during the week ending June 6, by 60,778, the most formidable addition in a long time.

Great Britain's unemployed now total 1,247,800, which is 244,385 more than a year ago.

### Passenger Wanted to Jump

Calais, France.—A thousand feet in the air, a British passenger on a London bound plane, decided he wanted to jump overboard.

The pilot argued with the passenger, meanwhile rushing his machine toward the earth. Once on the ground he called the police, who took the man in charge and the plane resumed its flight.

### Hopes For Peace

Geneva.—Speaking at a dinner of the press representatives, Austen Chamberlain, alluding to the negotiations with Germany, expressed the hope that a pact would be born which would place the peace of the world on a firm basis and remove all fear of insecurity remaining in the world.

### Earthquake Recorded

Victoria.—A severe earthquake was registered at Gonzales Heights Observatory June 9. The first wave continued for over three hours. The disturbance was about 6,000 miles distant, probably in the neighborhood of Formosa. It was stated.

## Most Promising Outlook For Canadian Wheat Crop

Ottawa.—The condition of Canada's wheat crop on May 30 stood at 102 per cent. of the average yield per acre for the previous ten years. This is the estimate of the Dominion bureau of statistics in the first of its reports on the present crop. The figure of 102 per cent. compares with 96 per cent. for May 30, 1923. It is the highest since May 30, 1921, when the estimate then also was 102 per cent.

## Canada Claims Northern Islands

All Islands Lying North of Mainland Up to the Pole

Ottawa.—Canada's claim to the Northern Archipelago was again asserted in the House of Commons by Hon. Charles Stewart, minister of the interior. Tabling a large map, Mr. Stewart said that the Canadian claim was to islands lying north of the Canadian mainland up to the North Pole.

W. G. McQuarrie, Conservative, New Westminster, drew Mr. Stewart's attention to claims of the United States as set forth in news dispatches. "I see they claim the North Pole," remarked Mr. McQuarrie. "Are we going to let them have it?"

Mr. Stewart said he had no remark to make about claims of the United States. Canada claimed the islands north of the Canadian coast between 60 and 142. He presumed that the United States would claim any islands north of Alaska. "We don't claim the North Pole. We claim up to it," said Mr. Stewart.

## Trouble In China

Britain to Use Every Endeavor to Preserve Law and Order

London.—Foreign police in Shanghai fired into crowds of students during the first outbreak of the present disturbances, "at a moment when the mob was forcing entrance into the police station and shouting 'kill the foreigners,'" Ronald McNeil, under-secretary for foreign affairs, informed the House of Commons.

Mr. McNeil declared law and order must be preserved in China, and that British officials on the spot would receive all the support that might be necessary.

Meanwhile, he said, the British Government wished to express its deep regret that lives should have been lost as a result of misguided agitation.

### France and Germany Aided By Britain

London.—The British Government gave official acknowledgement of the Franco-British agreement on the reply to Germany's security pact proposal, announced at Geneva. The British Government issued a statement emphasizing that the proposed pact is one of mutual assistance.

### Skyscraper For Palestine

Jerusalem.—The first skyscraper in Palestine is being erected here by a United States Jew. The building, which will be the tallest in Palestine, ten stories high, is on Ben Yehuda Street, near the Zion Theatre.

## UNITED CHURCH OF CANADA IS NOW A REALITY

Toronto.—Nearly seven hundred thousand strong, Methodists, Presbyterians and Congregationalists marched into the United Church of Canada and demonstrated their unity in three sessions of devotion and addresses, each of them attended by between 7,000 and 8,000 persons.

"This has been the greatest day in the history of Toronto and of Canada, and, in some respects, of the Christian world," said Rev. Dr. James Endicott, secretary for foreign missions of the Methodist Church, in addressing the gathering. The speakers were Dr. Endicott, Rev. Dr. D. L. Ritchie, principal of the Congregational College at Montreal, and Rev. Dr. Clarence MacKinnon, ex-moderator of the Presbyterian Church in Canada.

Figures which will be presented to the general council give an approximate membership for the United Church of 692,828, made up of 12,220 Congregationalists, 414,047 Methodists, and 266,111 Presbyterians. These are comprised in 174 Congregational Churches, 4,797 Methodist, and 3,835 Presbyterian Churches.

## Situation In Morocco Not Affecting Britain

Government Cannot Interfere Unless Rebellion Becomes International

London.—The British Government is not directly affected by the situation in Morocco, where tribesmen under Abd-el-Krim have invaded the French zone and is not in a position to take part in suppressing any rebellion there, which is not of an international character, it was stated in official quarters. This statement was made in answer to reports that a British destroyer was patrolling the Moroccan coast.

### Will Have To Rebuild Engines

Washington, D.C.—Five of the famous Maybach engines, pride of Germany's mechanical industry, may have to be remodelled to make the huge dirigible "Los Angeles" in which they are installed, available for practical flights, it was unofficially reported.

## Early Federal Election Is Now Predicted

Ottawa.—Both the Journal and Citizen are confident that the electors of the Dominion will go to the polls some time this year to register their votes in a general election. While the Citizen asserts that dissolution will probably occur in September, with elections in October, the Journal says: "Between now and November the people will go to the polls." The exact date of the election, the Journal understands, will depend upon the result in Nova Scotia, where a general election will be held on June 26.

## Child Immigration Has Many Drawbacks

System Criticized By Member of Montreal Woman's Labor League

Regina.—Injustice to child immigrants brought from England to Canada exists, and injustice to Canada exists because of their being brought, stated Mrs. Rose Henderson, Montreal, a Woman's Labor League speaker, in addressing the Local Council of Women.

Serious-minded men and women in Canada are commencing to hunt for the reasons of so much child delinquency, she said. Questions were commencing to be asked about the sort of parents and homes possessed in England by child immigrants sent to Canada. "You've no idea of the amount of ignorance in which the children are allowed to grow up," she declared, "and most of them drift into the ranks of unskilled labor."

But child immigration has little to commend it, thinks this Labor League member. An export trade and traffic in little children could not be right.

Mrs. Henderson said England was wealthy enough to finance mothers' pensions up to thirty million dollars a year if her government but recognized the duty of caring for the children within English borders.

## Cannot Rouse Any Anti-British Feeling

Efforts Made By Students In China Have Failed

Peking.—Student efforts to stir up anti-British and anti-Japanese movements among the shopkeepers, banks, servants and land owners of Peking, apparently were meeting with indifferent success.

British bank notes were refused in some instances, but generally the attempted boycott against foreign money was turned to financial profit by the Chinese, who charged a few pennies discount for each piece of foreign money. As far as could be observed, there were no strikes. Even the efforts to induce rickshaw pullers to refuse to haul British and Japanese customers were unsuccessful.

## Report Has Been Denied

No Higher Import Duty On Canadian Wool Says U.S. Consulate

Regina.—According to information reaching the head office here of the Canadian Co-operative Wool Growers, Ltd., reports are being circulated in rural districts of Saskatchewan that the United States Government has recently placed a higher import duty on Canadian wool. The report has been taken up with the American consular agency in Regina and found to be entirely without foundation. It is alleged the report is circulated with the idea of stampeding wool holders to sell.

### Building More Warships

London.—The Daily News prints an article by Lieut.-Commander J. M. Kenworthy, Liberal M.P., Central Hull, asserting that the die-hard Tories will demand that ten new 100,000-ton cruisers shall be built, and that the Baldwin Government probably will decide to lay down five such cruisers at a cost of £3,000,000 each.

### Belgian Wins Balloon Race

Brussels.—The Belgian pilot Veenstra, in the balloon Prince Leopold, won the Gordon Bennett cup balloon race, which started from here June 7, it was announced.

Veenstra landed June 9 at Cape Tourin, Spain. He travelled a distance of about 822 miles.

## CANADA IS TO HAVE A NEW NATIONAL FLAG

Ottawa.—Falling in line with Australia and New Zealand, Canada is to have a new flag, which will be recognized as the flag of the Dominion. The government has passed an order-in-council appointing a committee to consider and report on the most suitable design for a Canadian national flag for use ashore.

A distinctive Canadian flag has so far been authorized for use only by Canadian Government-owned vessels and by other vessels of Canadian registry. In the former case, the flag is the blue ensign, with the Canadian arms in the fly, while merchant vessels of Canadian registry use the red ensign with the Canadian arms in the fly.

At present, under an order-in-council passed some years ago, the red ensign, with the Canadian arms in the fly, is flown over the office of the Canadian high commissioner in London, as well as over other Canadian offices abroad, but the flag has never been authorized.

The committee has three suggestions before it at present. The first is to continue the use of the red ensign with the Canadian arms as Canada's national flag. The second is to use the Union Jack with the Canadian arms in the centre. The third is to adopt an entirely new design.

In its selection of a flag, the committee will, it is stated, be glad to receive suggestions from any person who is interested.

## Favors Grant For Merchant Marine

Special Committee Unanimous In Recommending Vote of \$668,000

Ottawa.—The special committee on National railways and shipping, through its chairman, W. D. Euler, presented in the house a unanimous report in favor of the vote of \$668,000 asked for the Canadian Government Merchant Marine this year. The committee, in its report, notes that the net results for the Government Merchant Marine have improved to the extent of \$423,412 during 1924, in comparison with 1923, notwithstanding the depression which existed in world trade conditions.

"Your committee is also impressed with the conviction expressed by the president of the Canadian National Railways," the report continues, "that, during the coming year, the position of the Canadian Government Merchant Marine will be materially improved, and attention is drawn to the fact that the amount requested in the estimate for the fiscal year ending March 31, 1926, is \$668,000, of which \$600,000 is for deficits and \$68,000 for capital expenditures, whereas the amount included in the estimates for the fiscal year ending March 31, 1925, was \$900,000 all for deficits.

## Agriculturists To Meet

Canadian Society of Technical Agriculturists to Convene at Edmonton

Edmonton.—The annual convention of the Canadian Society of Technical Agriculturists will be held in Edmonton, June 24-25 in the university convocation hall. It will be preceded by a two-days' meeting of the Canadian Seed Growers' Association, on June 22 and 23, which will also be held at the university.

### Depositors Are Satisfied

Toronto.—W. T. J. Lee, chairman of the National Depositors' Association of the defunct Home Bank, expressed satisfaction with the government's grant of \$5,400,000, which amounts to 35 cents on the dollar.

"I think I may safely say that the depositors throughout Canada are very well satisfied," he said.

### Poison Gas Outlawed

Geneva.—The international conference for the control of traffic in arms has outlawed poison gas warfare by adopting a protocol submitted by the United States delegation prohibiting use of chemicals and bacteria as weapons.

A new non-tarnishing silver has been developed by a British company.

## One Town, One Country One Fair.

If there is strength in unity, and most of us will agree that there is, an opportunity now presents itself to everyone to take an active interest in the local exhibition.

The Didsbury Agricultural Society is making a strong effort to have this year's event even better than the last, and with this object in view the directors invite the co-operation of both town and country. There are few, if any, local organizations which have more completely justified themselves than our Agricultural Society, or which have more faithfully adhered to the broad spirit of useful service in which it was conceived. To encourage the breeding of better live stock, the production of better farm produce, and to stimulate dairy farming and dairy industries, was the primary purpose for which the fair was started, and in achieving this purpose, as most of our readers will agree, it has been singularly successful.

In addition to the exhibits, there are other features affording instruction and entertainment, and thus a person with no interest in farming and no knowledge of live stock can easily spend a pleasant day there.

All this, however, requires preparation, and however energetic the officers of the Society may be, a little friendly encouragement and practical assistance is always welcomed and appreciated.

## Local Whispers.

Mrs. W. Leadbetter left on Tuesday to pay a visit to her son at Coronation.

Mayor Chambers was confined to his house last week for a few days with a poisoned foot.

Sam McGrath, who about twenty years ago was foreman of the C.P.R. section gang here, spent a few days here this week on business.

The annual Dog Pond U.F.A. picnic and stampede will be held at Dog Pond on Wednesday, July 22.

The Didsbury staff of the Alberta government telephones gave Miss Vera Hehn a very pleasant surprise last Thursday evening, when they presented her with a cut glass water set. The presentation was made by J. Boorman in a few well chosen words, and afterwards a well-served lunch was enjoyed by all.

Miss Marion Leeson, who returned from Calgary last week, where she has been attending Normal, was successful in passing the swimming and life-saving examination set by the Royal Life Saving Society of London, England, and has been awarded the bronze medal and crest.

A big ball game will take place at Dave Irwin's residence on Friday, June 26, at 6.30 p.m., after which a dance in aid of U.F.A. will be held in Mr. Irwin's big barn. One dollar a couple, supper included. Music furnished.

Members of the 15th C.L.H., R.C., residing in the district who require information as to the movements of their unit this summer should communicate with Sergt. Gochee, or Major W. E. Tidball, Carstairs, to whom also anyone wishing to join up should apply. J. L. Stevens is leaving Didsbury and probably will be away for some time, he would therefore like to take this opportunity of wishing all the boys good luck and at the same time would extend his thanks for the hearty support each one has given him.

## Didsbury Opera House

BIG SCENES GALORE IN  
"NORTH OF 36" PRODUCTION

Comparable only, it is said, to the famous journey of the pioneers in James Cruze's "The Covered Wagon" is the huge drive of four thousand cattle in "North of 36," which Orvin Willat produced for Paramount.

In the story, which was written by Emerson Hough, who also wrote "The Covered Wagon", a herd of four thousand long-horn cattle start from the Del Sol ranch in south-eastern Texas and, with the north-star as their only guide, set out for the railroad at Abilene, Kansas.

Two tremendous stampedes, a river fording scene, an attack by the Indians and a night attack by a band of carpet-baggers mark a few of the many thrilling incidents which take place during the journey.

Featured in the cast of "North of 36", coming to the Didsbury Opera House on June 24th, are Jack Holt, Ernest Torrence, Lois Wilson and Noah Beery.

## FOUR FIGHTS

Four smashing good fights, any one of which will keep the average small boy twisting nervously on the edge of his seat, are high spots in "Western Luck", a speedy western picture, which brings Charles Jones, the William Fox star, to the Didsbury Opera House, on Saturday, June 20.

## Calgary Exhibition

Calgary's mammoth Jubilee celebration held in conjunction with the Calgary Exhibition and Stampede, July 6th to 11th will no doubt bring together the largest number of people ever at one place in Alberta. The Calgary Exhibition and Stampede held the past two years were very marked successes but any one familiar with the preparations already made for this year's combined event is convinced that it will be even a greater success. From the great Historical Pageant and Stampede Parade which will take place at ten o'clock the morning of July 6th to the Grand Barbecue on Saturday night, the week will be full of thrills, and will tell the story of fifty years of development.

The Exhibition will be the occasion for the gathering together of the best live stock not only of Alberta but of the adjoining provinces and states. Alberta is noted for the production of the highest quality live stock, and as the live stock industry is the foundation stone of Alberta prosperity, the Exhibition directors are giving all possible encouragement to it. The great Historical Pageant will in itself be a wonderful demonstration of the quality of Alberta horses, as most of the floats in the parade (which will be five miles long) are to be drawn by four and six horse teams, and the farmers of the Gleichen district, in presenting their thirty-six horse team hauling ten wagon loads of wheat, will demonstrate in a manner which all Alberta residents will be proud of the class of horses produced in the Province.

Special passenger fares will be in force from Alberta, Saskatchewan and British Columbia mainland points. General information and prize lists for the various departments may be obtained by writing to the Exhibition offices, Calgary. Exhibition entries close on June 20th. There is a splendid classification for live stock and domestic exhibits.

## A Long Hike

Mr. and Mrs. Bedgood are on their way from St. John to Vancouver, pushing a baby carriage containing their five-year-old daughter, Magdalene. They are trying to win a wager of \$4,000 by hiking across the continent and must reach the Pacific coast city by January 15 next. They left St. John on Easter Sunday.

Does your baby suffer the burning itch, the terrible pain of eczema and other skin troubles? Here is instant relief. Just a few drops of this potent liquid remedy, and all itching is gone—all itching, all pain, all irritation washed away. The first \$1.00 bottle relieves you or your money back. Try D. D. D. soap, too.

## Rugby Notes.

The Rugby W. I. met at the home of Mrs. George Young on Thursday, June 5th. Fifteen members were present, and we were delighted to see our convenor among us. In the absence of the President, our Vice-President, Mrs. Whiteside, took the chair. Mrs. Kirby gave an excellent report of the convention; and a short paper was read on "Banking for Women." A bread contest was held at this meeting, and the winners were: 1st prize, Miss Harris; 2nd prize, Mrs. Whiteside. All arrangements were made for our annual picnic at Rugby school on July 1st, so keep that date in mind. The meeting closed with "God Save the King" and lunch was served.

Once again we can report a pleasant evening at Rugby school, Friday, June 5th. There was a nice little crowd present, but we missed several familiar faces. The ball game between Rugby and Elkton schools, resulted in a victory for Elkton. After that was finished a short program was given; then lunch was served, and the evening finished with a dance. We must be turning over a new leaf for we all went home in good time, or perhaps, like Charlie, we had to tumble out of bed at half past four to be ready for another day's work. Proceeds amounted to \$27.

## Annual Camp Meeting.

The annual camp meeting in connection with the Mennonite church will be held at Didsbury July 9th-19th. Everybody is cordially invited to attend.

## Burnside Items

Mr. and Mrs. Noah Eckel spent Sunday at Mr. Duncan Morrison's, near Coburn school.

Work has commenced on the Jutland-Burnside Community Hall and a small army of workers have been busy this week hauling sand, gravel and rocks and excavating for the basement. If everybody helps a little the hall will soon be ready for the opening ceremonies.

Neapolis ball team re-organized on Tuesday evening with Hector Duncan as manager and Noah Eckel as captain. We hope to see some snappy ball from this team this summer.

Burnside school held a sports day and picnic on Friday afternoon and Jutland scholars and their parents were the guests of honor. Everyone reported a good time.

Don't forget the Burnside U. F. A. annual picnic on June 30th. Keep the date in mind.

All those interested in athletics and lovers of a good time, should not fail to attend the annual U. F. A. picnic, held on the new hall site, on June 30th. A splendid program has been arranged, consisting of the following events: baseball games, Jutland and Burnside team races, novelty foot races and games for old and young, various feats of horsemanship including bucking and jumping. "The Prairie Chickens," girls baseball team, challenge "The Magpies," married women's team, for the championship of central Alberta. A thrilling game is anticipated. The backslors are advised to have their teeth sharpened for the cake eating contest, the winner to be presented with a cook for the threshing season, don't crowd girls. All men who have been married long enough to learn to kick, shave your corns for a good old time football game.

A very interesting game of baseball took place last Sunday afternoon between Lone Pine and Gore teams. The spectators strained their features somewhat in an effort to enjoy the sport and at the same time save their conscience for Sunday, ball games.

Last Thursday evening a number of friends and neighbors of the newly-weds gathered together to welcome them into the inner circle of married bliss. Owing to a painful shyness shared by both, they felt unable to meet the noisy felicitations of the gang and took to the tall timbers, much to the disappointment of the cowbell band. Any information of their whereabouts will be greatly appreciated, as grave apprehensions are caused by their sudden and unexpected midnight flights.

Miss E. Barnhill of Olds, was the guest of Miss A. McElmon for the week-end.

Mr. J. Reynolds is engaged in remodeling the home of Mr. Jenkins, one of our new settlers.

Recent rains have greatly improved the crops in this vicinity.

The regular monthly meeting of the Women's Institute was held at the home of Mrs. McLean. A very interesting account of the convention at Edmonton was given by the delegate, Mrs. Lyons. At the conclusion of the meeting a dainty lunch was served by the hostess.

The teacher and pupils of Burnside school entertained the parents and Jutland school at a picnic last Friday afternoon. Our young hopefuls showed their metal in a lively game of baseball. Races and games with prizes made up a very pleasant afternoon for old and young. At the conclusion lunch was served in the schoolhouse.

The annual U. F. A. service will be held in the Jutland school next Sunday, June 21st, at three o'clock.

## Municipal Co-operative Hail Insurance.

Here are facts that will pay the farmer—and pay him well—to consider.

That in the last six years the farmers' own co-operative plan, The Municipal Hail Insurance, carried 57 per cent of the total hail insurance written in Alberta.

That out of every dollar hail insurance tax imposed under the Municipal Hail Insurance plan, 85 cents was returned to the farmer in payment of losses, 8 1-3 cents went to the reserve fund and 6 2-3 cents paid all costs of administration.

## Support your own co-operative plan.

## PLANT TREES ON THE FARM.

Have you ever stopped to consider how the permanence of our farm population lies in the comfort and contentment of our farm women? They are the sheet anchors of the nation, and half the loneliness and depression and discouragement and discontent they so often suffer is dispelled the day the good wife goes out to her own garden and fills a big basket with fine, luscious strawberries. The other half of her troubles go when she picks her first apple. The intrinsic value of these things, the actual saving in money it takes to buy them is nothing. It is the fact of being able to grow them and go out

and get them for herself that counts. The place really becomes worth staying in after that. It takes on a new and distinctive character immediately. It becomes a real home. Plant trees for the home-maker; she deserves them for she is the most important personage on the farm, not you or the hired man. Make her comfortable and then everybody else will be comfortable.

And the kiddies! They will never forget the trees! The plantations, their shape, the various corners they played in, the individual trees where little childhood events happened. These are the things that count in a psychology of a people. The future of the nation lies in the hands of the children and there is no better place possible to root in them that love of country that will stand the test than a well planted farm home.

## A Romance of the Spanish Main CAPTAIN BLOOD by RAFAEL SABATINI

Copyrighted, 1922, by Rafael Sabatini  
"CAPTAIN BLOOD," a Vitaphone picture with J. Warren Kerrigan  
in the title role, is an adaptation of this thrilling novel.

### CHAPTER XXIII.—Continued.

"Perhaps it will be best," M. de Rivarol took up a paper. "Before going further, I have to observe that M. de Cussy has exceeded his instructions in admitting you to one-fifth of the prizes taken."

"That is a matter between yourself and M. de Cussy, my general."

"Oh, no. It is a matter between myself and you."

"Your pardon, my general. The articles are signed. So far as we are concerned, the matter is closed."

"But, non de Dieu! It is your concern, I suppose, that we cannot award you more than one-tenth share."

"You are quite certain of that, M. le Baron; that you cannot?"

"I am quite certain that I will not."

"In that case," said Blood, "it but remains for me to present my little account for our disbursement, and to fix the sum at which we should be compensated for our loss of time and derangement in coming hither. That settled, we can part friends, M. le Baron. No harm has been done."

"What the devil do you mean?"

"Is it possible that I am obscure? My French, perhaps, is not of the purest, but—"

"Oh, your French is fluent enough; too fluent at moments, if I may permit myself the observation. Now, look you here, M. le Filibustier, you have accepted service of the King of France, you and your men. The first obligation of an officer is obedience. You are not to conceive yourselves, as you appear to be doing, my allies in the enterprises I have in view, but my subordinates. In me you behold a commander to lead you, not a companion or an equal."

"Oh, be sure that I understand," Captain Blood laughed. He was recovering his normal self amazingly under the inspiring stimulus of conflict. The only thing that marred his enjoyment was the reflection that he had not shaved. "I forget nothing, I assure you, my general. I do not forget, for instance, as you appear to be doing, that the articles we signed are the condition of our service; and the articles provide that we receive one-fifth share. Refuse us that, and you cancel the articles; cancel the articles and you cancel our service with them. From that moment we cease to have the honor to hold rank in the navies of the King of France."

Captain Blood rose, his officers rose with him. Captain Blood bowed.

"M. le Baron!" said he.

"You shall be advised of my resolve," M. le Baron retorted.

That resolve proved to Captain Blood's way next official business

## NERVOUS BREAK-DOWN

### Pains in Back and Legs Relieved by Lydia E. Pinkham's Vegetable Compound

Ford, Ontario.—"I had a nervous break-down, as it is called, with severe pains in my back and legs, and with fainting spells which left me very weak. I was nervous and could not sleep nor eat as I should and spent much time in bed. I was in this state, more or less, for over two years before Lydia E. Pinkham's Vegetable Compound was recommended to me by my neighbor. Before I had taken five doses I was sitting up in bed, and when the first bottle was taken I was out of bed and able to walk around the house. During my sickness I had been obliged to get some one to look after my home for me, but thanks to the Vegetable Compound I am now able to look after it myself. I have taken Lydia E. Pinkham's Blood Medicine in turn with the Vegetable Compound, and I certainly recommend these medicines to any one who is not enjoying good health. I am quite willing for you to use these facts as a testimonial."—Mrs. J. SHEPHERD, 130 Jos. Janisse Avenue, Ford, Ontario.

Nervousness, irritability, painful times, run-down feelings and weakness are symptoms to be noted. Women suffering from these troubles, which they so often have, should give Lydia E. Pinkham's Vegetable Compound a fair trial. All druggists sell this medicine.

W. N. U. 1581

brought these two together. Wolverstone was the cause of Captain Blood hunting audience with the admiral while he sat at dinner. The Old Wolf had retorted with his ready fist a mocking Frenchman's remarks and had been flung in jail. M. de Rivarol bade his visitor be admitted.

There entered now into his presence a spruce and modish gentleman, dressed with care and somber richness in black and silver, his swarthy, clear-cut face scrupulously shaven, his long black hair in ringlets that fell to a collar of fine point. In his right hand the gentleman carried a broad black hat with a scarlet ostrich plume, in his left hand an ebony cane. His stockings were of silk, a bunch of ribbons masked his garters and the black rosettes on his shoes were finely edged with gold.

"Your people have arrested the wrong man, M. de Rivarol," Captain Blood began. "Instead of the French officer, who used the grossest provocation, they have arrested Captain Wolverstone. It is a matter which I beg you to reverse without delay."

"Sir, you—you are insolent! But of insolence that is intolerable!"

"M. le Baron, you waste words. Justice is justice in the New World as in the Old. That justice I invite you, with submission, to administer."

"With submission?" snorted the baron in furious scorn.

"At the same time I will remind M. le Baron that my buccaneers number 800; your troops 500; and M. de Cussy will inform you of the interesting fact that any one buccaneer is equal in action to at least three soldiers of the line."

"My superior officer! You! Why, you are just a common pirate."

"You will do me the favor to wait in the ante-room, M. le Capitaine. I desire a word with M. de Cussy."

When the door had closed, the baron loosed his fury upon the head of M. de Cussy.

"So, these are the men you have enlisted in the King's service, the men who are to serve under me! What explanations do you offer me, M. de Cussy? I warn you that I am not pleased with you. I am, in fact, as you may perceive, exceedingly angry."

The Governor seemed to shed his chubbiness. He drew himself stiffly erect.

"M. le Baron, it was folly to have arrested the buccaneer captain. It would be madness to persist. We have not the forces to meet force."

"M. de Rivarol condescended to be mollified. It was necessary that he should save his face."

"Very well," he said. "Be so good as to recall this Captain Blood."

The Captain came in, assured and very dignified. M. de Rivarol found him detestable; but dissembled it.

"M. le Capitaine, I have taken counsel with M. le Gouverneur. From what he tells me, it is possible that a mistake has been committed. Your captain shall be released."

Captain Blood bowed.

"And now, sir, you have had the night for reflection in this matter of the articles. Am I to understand that you confirm or that you repudiate them?"

"I have considered that, too," he announced. "And whilst my opinion remains unaltered, I must confess that

since M. de Cussy has pledged us, it is for us to fulfill the pledges. The articles are confirmed, sir."

Blood and his officers were summoned a week later to a council which sat to determine their operations against Spain. M. de Rivarol laid before them a project for a raid upon the wealthy Spanish town of Cartagena, which was rich in gold loot. Captain Blood professed astonishment. Sourly invited by M. de Rivarol to state his grounds for it, he did so with the utmost frankness.

"You mean, sir, that we are to sail across the Caribbean on an adventurous expedition, neglecting that which lies here at our very door. In our absence, a Spanish invasion of French Hispaniola is possible. If we begin by reducing the Spaniards here, that possibility will be removed. We shall have added to the Crown of France the most coveted possession in the West Indies."

Captain Blood laughed outright. He had suddenly read the Baron's mind. M. de Rivarol, intrigued by his mirth, scowled upon him disapprovingly.

"Why do you laugh, monsieur?"

"Because I discover here an irony that is supremely droll. You, M. le Baron, General of the King's Armies by Land and Sea in America, propose an enterprise of a purely buccaneering character; whilst I, the buccaneer, am urging one that is more concerned with upholding the honor of France. You perceive how droll it is."

"M. le Filibustier," cried Rivarol in a thick voice, "it seems that I must again remind you that I am your superior officer."

"My superior officer! You! Why, you are just a common pirate! M. le Baron, I have the honor to wish you good-day."

He stalked out, and his three captains, although they thought him mad—rolled after him in loyal silence.

Nevertheless, it was to Cartagena that they sailed in the middle of March. Volunteers and negroes had

brought up the forces directly under M. de Rivarol to twelve hundred men. With these he thought he could keep the buccaneer contingent in order and submissive.

They made up an imposing fleet, led by M. de Rivarol's flagship, the Victorieuse, a mighty vessel of eighty guns. Each of the four other French ships was at least as powerful as Blood's Aracella, which was of forty guns. Followed the lesser buccaneer vessels, the Elizabeth, Lachesis, and Atropos, and a dozen frigates laden with stores, besides canoes and small craft in tow.

### Unique Cure For Seasickness

Moving Picture Director Is Conducting Experiments At Hollywood

An experiment in the filming of moving pictures for exhibition on ocean passenger liners as a cure for seasickness among passengers is being conducted at Hollywood, Cal., by Robert G. Vignola, a director.

The cause of seasickness, the director declares, is largely visual, predicated on the shifting planes which characterize the motion of a ship. The larger ocean passenger carriers are now equipped with exhibition cameras and screens, and it is Vignola's belief that pictures can be made for exhibition on shipboard which will counteract the effect of the ship's motion and save the most susceptible passenger from the horrors of mal de mer.

### Steady Market For Souvenirs Of Brazil

Jewelers Carry On Large Trade With Tourists

Rare the tourist who does not leave Brazil with a souvenir in the shape of a semi-precious stone or the colorful wing of a butterfly. Some buy the stones in large numbers, for a Rio de Janeiro jeweler declares he has sold approximately 4,000 aquamarines, for about \$20,000, to the 385 Americans on board a tourist steamer recently in the harbor.

Large blue butterfly wings, the Mospho, mounted in glass trays, sell at the rate of about 10,000 pair a year, and there is a steady market for green beetles mounted as scarf pins.

### Cost of Pensions

Canada spent \$49,056,179 last year for pensions and re-establishment of veterans of the Great War, according to a report of the department in charge of this work.

### Eating Up Our Income

More Than One Quarter of Earnings Go For Food

North Americans literally eat up their income. Ten years ago one-fifth of one's earnings was deemed sufficient for food. Today the figure has risen to 27 per cent.—more than one-fourth.

Last year, says Dr. Paul H. Nyström, head of the Retail Research Association, the total estimated income on this continent was 68 billion dollars. Almost half went to retail stores. More than 18 billions went for food, tobacco and soft drinks.—Vancouver World.

"I hate this job of thinning out my eyebrows," said the girl at the mirror. "It certainly takes a lot of pluck," said her room-mate.

### WORLD HAPPENINGS BRIEFLY TOLD

Germany's reparation payments through the office of the agent totalled 100,100,000 marks during May.

The Free State Government has decided to take part in the movement for popularizing Ireland as a tourist resort.

A total of 599,254 spectators, 150,681 of whom were deadheads, attended the Olympic Games last summer, according to official figures.

The Hon. Henry Cockshutt, lieutenant-governor of Ontario, has been elected director of the Canadian Pacific Railway vice Sir Edmund Osler, deceased.

The first Baron MacDonnell, of Swinford, died June 9 in London, aged 81. He will be remembered chiefly for his tenure of office as under secretary for Ireland from 1902 to 1908, when he was Sir Anthony MacDonnell.

Official circles categorically denied the recent report emanating from Paris to the effect that a number of young Germans were enroute to Morocco to become officers under Abd-el-Krim in his war against the French.

Colonel James A. Logan, American observer on the reparations commission in Paris, has resigned for "personal and business" reasons, and his resignation has been accepted by Secretary Kellogg.

The Latvian Parliament has passed a law forbidding the sale of alcoholic drinks at educational institutions, at theatres, exhibitions, fairs, in provision shops, on board vessels in inland waters, on railway trains and in railway stations.

### Lower Interest Rates

#### Considerable Foreign Money Being Loaned On Alberta Property

Alberta financiers have noticed a new influx of foreign money, which is being loaned on city property in the province at a rate as low as 7 per cent. While not much British capital has been noticeable in the west this spring, Dutch financial concerns are heavily interested in new loans.

#### A Nightgown That Is Practical As Well As Dainty

Almost every home sewer delights in making her own dainty undergarments. There are so many beautiful lingerie materials in the shops that there is no difficulty in finding the right material, whether it be fine nainsook, silk mull, French voiles, cotton crepe or crepe-de-chine. The gown illustrated is very easily made. It may be finished at neck edge and armholes with narrow binding and tied together on shoulders with narrow ribbon bows. The pattern includes a berthia which may be of all-over lace if a more trimmed garment is desired. No. 1029 made in sizes 36, 40 and 44 inches bust. Medium size requires 3½ yards of 36-inch material without the berthia; ¾ yards more with berthia.

## SUNDAY SCHOOL LESSON

JUNE 21

### PETER DELIVERED FROM PRISON

Golden Text: The angel of the Jehovah encampeth round about them that fear him.

And delivereth them.—Psalm 34:7.

Lesson: Acts 12:1-24.

Devotional Reading: Psalm 91:1-12.

#### The Text Explained and Illumined

James is killed and Peter is imprisoned, verses 1-4. Herod Agrippa I., grandson of Herod the Great, was now king of Palestine, and he began at this time to persecute the leaders of the church at Jerusalem. He had James, the brother of John, beheaded, and this deed pleased the Jews. It was "the days of unleavened bread," as the Passover was called, because no leaven, or yeast, was allowed in Jewish homes while the festival lasted. It was a time when the Jews were especially hostile to those who differed from them, and Herod, as Josephus says of him, "rejoiced in living in good reputation." He sought to still further enhance his reputation by having Peter imprisoned to await his execution at the close of the Passover. Executions were not carried out during the Passover, as the festival must not be polluted by the shedding of blood, and Herod was nominally a Jew (his grandmother, Mariamne, was a Jewess) and most scrupulous as to all Jewish observances.

"When Herod saw that it pleased the Jews, he proceeded to seize Peter also. When a man finds that a certain course of conduct is receiving popular applause he is led on to further excesses. A public speaker descends to a coarse and vulgar jest, and because it pleases the baser sort in the audience, and the speaker is awarded a round of applause, he is prone to descend to still farther depths of degradation" (Dr. J. H. Jowett).

### New Mounted Police Post

#### Administering the Law in the Northern Parts of Canada

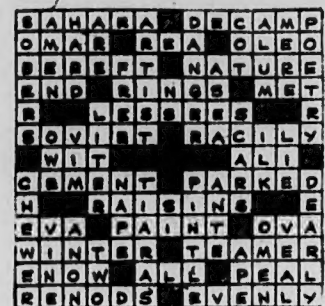

George P. MacKenzie, formerly gold commissioner in the Yukon Territory, will be in charge of the party going north this summer under the direction of the department of the interior on board the Arctic.

The Arctic will pay the usual visits to the northern outposts, and will carry Mounted Police to relieve those patrols which have been in the north since last year.

The department will continue to carry on the work of administration of the northern islands, and a new post will probably be established on Ellis-More Island.

## HEALTHY CHILDREN ARE HAPPY CHILDREN

The well child is always a happy child—it is a baby's nature to be happy and contented. Mothers, if your little ones are cross and peevish and cry a great deal; they are not well—they are in need of a medicine—something that will set their bowels and stomach in order, for nine-tenths of all childhood ailments arise from a disordered state of the bowels and stomach. Such a medicine is Baby's Own Tablets. They are a mild but thorough laxative which regulate the bowels, sweeten the stomach and thus drive out constipation and indigestion; banish colic; break up colds and simple fevers and make the baby healthy and happy. The Tablets are guaranteed to be absolutely free from opiates or other harmful drugs—they cannot possibly do harm—always good. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.
